Address: 7588 Barnhart Pl.
Cupertino, CA 95014
Phone Number: (408)663-0933

EDUCATION

University of California, San Diego B.S. in Mathematics-CS, GPA: 3.90/4.00	La Jolla, CA 2019–Current
Monta Vista High School High School, GPA: 3.90/4.00	Cupertino, CA 2015–2019

COURSES TAKEN

Linear Algebra (A+) MATLAB	MATH 18 Fall 2019
Statistical Methods (A) R, Regression, Gaussian Distribution, Poisson Distribution, Chi-Squared Distribution	MATH 183 Winter 2020
Cryptography I RSA	Coursera Course Winter 2020
Basic Data Structures and Object-Oriented Design (A+) Java, ArrayList, LinkedList, Stack, Queue, Heap, BST, HashTable	CSE 12 Spring 2020
Software Tools and Techniques Laboratory (A) Linux, Shell Scripting, MakeFiles, Vim, GDB, GitHub	CSE 15L Spring 2020
Mathematical Reasoning (A-)	MATH 109 Summer 2020
Computer Organization and Systems Programming (A-) C, ARM Assembly, Memory Hierarchy and Management	CSE 30 Summer 2020

FUTURE COURSES

Abstract Algebra	MATH 100A-C Fall 2020 –Spring 2020
Introduction to Analysis	MATH 142A-B Fall 2020 –Winter 2020
Enumerative Combinatorics	MATH 184 Fall 2020
Deep Learning	CSE 151B Fall 2020
Advanced Data Structures	CSE 100 Winter 2020

Theory of Computability

CSE 105
Winter 2020

Introduction to Numerical Optimization

MATH 171A-B
Winter 2020 –Spring 2020

Design and Analysis of Algorithms

CSE 101
Spring 2020

Software Engineering

CSE 110
Spring 2020

TEACHING

- **Dance Teacher** at Dance Academy USA 2016-2019
Taught young dancers basic technique and choreographed dances for the annual recital held by the dance studio

SKILLS

- **Java**
- **C**
- **Python**
- **JavaScript**

LANGUAGES

- **English**
- **Chinese**
- **Japanese**

PROJECTS

Agent Based Programming for Bee Pollination (NetLogo, 2016)

- Modeling the pollination patterns of bees and seeing how diversity of bees affect the reproduction of fruits.
Created for the 2016 Synopsys Science Fair, won first place in category

Zika Virus (R, 2016)

- Modeled the transmission and spread of Zika Virus disease.
Project for UCD COSMOS program

Offloading on the Page: When does Note-taking Impair Future Recall? (Psychology, 2017)

- Psychology experiment testing whether note-taking helps or impairs memorization of things.
Project for UCSC Science Internship Program

Modeling the Effect of Alzheimer's on Learning Rate (Python, 2018)

- Simulated both synapse blockage and neuron death to see the effects on memory recollection.
Project for Boston University's RISE Program

Timer app for mobile phone (JavaScript, 2019)

- Timer app that "charges" you for leaving the app for a certain amount of time
Created for the 2019 UCSD Hackathon

EXTRACURRICULAR ACTIVITIES

- Member at Ascension 2019–Current
Competitive urban dance group at UCSD
- ASB Leadership 2018–2019

Managed all clubs on campus, including keeping track of club funds, club meeting minutes, and club applications. Also planned school-wide events such as Homecoming, dances, spirit weeks, and more.

- Choreographer for class dances 2015–2019
Choreographed dances for homecoming and more, as well as organizing practice and teaching groups of around 40 students who participated in the dance.
- Song Team at Monta Vista 2015-2017
Part of the Song team at Monta Vista. Cheered at games and competed at national competitions. Captain during second year on the team.
- Teacher Assistant at Dance Academy USA 2013–2017
Assisted teachers with their dance classes, led warm-ups and helped choreograph routines for teachers
- Competitive Dancer at Dance Academy USA 2007–2019
